

Information maintained by the Legislative Reference Bureau

Updating the database of the Illinois Compiled Statutes (ILCS) is an ongoing process. Recent laws may not yet be included in the ILCS database, but they are found on this site as [Public Acts](#) soon after they become law. For information concerning the relationship between statutes and Public Acts, refer to the [Guide](#).

Because the statute database is maintained primarily for legislative drafting purposes, statutory changes are sometimes included in the statute database before they take effect. If the source note at the end of a Section of the statutes includes a Public Act that has not yet taken effect, the version of the law that is currently in effect may have already been removed from the database and you should refer to that Public Act to see the changes made to the current law.

**PUBLIC HEALTH
(410 ILCS 82/) Smoke Free Illinois Act.**

(410 ILCS 82/1)

Sec. 1. Short title. This Act may be cited as the Smoke Free Illinois Act.

(Source: P.A. 95-17, eff. 1-1-08.)

(410 ILCS 82/5)

Sec. 5. Findings. The General Assembly finds that tobacco smoke is a harmful and dangerous carcinogen to human beings and a hazard to public health. Secondhand tobacco smoke causes at least 65,000 deaths each year from heart disease and lung cancer according to the National Cancer Institute. Secondhand tobacco smoke causes heart disease, stroke, cancer, sudden infant death syndrome, low-birth-weight in infants, asthma and exacerbation of asthma, bronchitis and pneumonia in children and adults. Secondhand tobacco smoke is the third leading cause of preventable death in the United States. Illinois workers exposed to secondhand tobacco smoke are at increased risk of premature death. An estimated 2,900 Illinois citizens die each year from exposure to secondhand tobacco smoke.

The General Assembly also finds that the United States Surgeon General's 2006 report has determined that there is no risk-free level of exposure to secondhand smoke; the scientific evidence that secondhand smoke causes serious diseases, including lung cancer, heart disease, and respiratory illnesses such as bronchitis and asthma, is massive and conclusive; separating smokers from nonsmokers, cleaning the air, and ventilating buildings cannot eliminate secondhand smoke exposure; smoke-free workplace policies are effective in reducing secondhand smoke exposure; and smoke-free workplace policies do not have an adverse economic impact on the hospitality industry.

The General Assembly also finds that the Environmental Protection Agency has determined that secondhand smoke cannot be reduced to safe levels in businesses by high rates of ventilation. Air cleaners, which are capable only of filtering the particulate matter and odors in smoke, do not eliminate the known toxins in secondhand smoke. The American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) bases its ventilation standards on totally smoke-free environments because it cannot determine a safe level of exposure to secondhand smoke, which contains cancer-causing chemicals, and ASHRAE acknowledges that technology does not exist that can remove chemicals that cause cancer from the air. A June 30, 2005 ASHRAE position document on secondhand smoke concludes that, at present, the only means of

eliminating health risks associated with indoor exposure is to eliminate all smoking activity indoors.

A private residence or home-based business, unless used to provide licensed child care, foster care, adult care, or other similar social service care on the premises, is not a "place of employment", nor are enclosed laboratories, not open to the public, in an accredited university or government facility where the activity of smoking is exclusively conducted for the purpose of medical or scientific health-related research. "Private residence" means the part of a structure used as a dwelling, including, without limitation: a private home, townhouse, condominium, apartment, mobile home, vacation home, cabin, or cottage. "Public place" means that portion of any building or vehicle used by and open to the public, regardless of whether the building or vehicle is owned in whole or in part by private persons or entities, the State of Illinois, or any other public entity and regardless of whether a fee is charged for admission, including a minimum distance, as set forth in Section 70 of this Act, of 15 feet from entrances, exits, windows that open, and ventilation intakes that serve an enclosed area where smoking is prohibited. A "public place" does not include a private residence unless the private residence is used to provide licensed child care, foster care, or other similar social service care on the premises. A "public place" includes, but is not limited to, hospitals, restaurants, retail stores, offices, commercial establishments, elevators, indoor theaters, libraries, museums, concert halls, public conveyances, educational facilities, nursing homes, auditoriums, enclosed or partially enclosed sports arenas, meeting rooms, schools, exhibition halls, convention facilities, polling places, private clubs, gaming facilities, all government owned vehicles and facilities, including buildings and vehicles owned, leased, or

"Restaurant" includes a bar area within the restaurant.

"Retail tobacco store" means a retail establishment that derives more than 80% of its gross revenue from the sale of loose tobacco, plants, or herbs and cigars, cigarettes, pipes, and other smoking devices for burning tobacco and related smoking accessories and in which the sale of other products is merely incidental. "Retail tobacco store" includes an enclosed workplace that manufactures, imports, or distributes tobacco or tobacco products, when, as a necessary and integral part of the process of making, manufacturing, importing, or distributing a tobacco product for the eventual retail sale of that tobacco or tobacco product, tobacco is heated, burned, or smoked, or a lighted tobacco product is tested, provided that the involved business entity: (1) maintains a specially designated area or areas within the workplace for the purpose of the heating, burning, smoking, or lighting activities, and does not create a facility that permits smoking throughout; (2) satisfies the 80% requirement related to gross sales; and (3) delivers tobacco products to consumers, retail establishments, or other wholesale establishments as part of its business. "Retail tobacco store" does not include a tobacco department or section of a larger commercial establishment or any establishment with any type of liquor, food, or restaurant license. Rulemaking authority to implement this amendatory Act of the 95th General Assembly, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative Rules; any purported rule not so adopted, for whatever reason, is unauthorized.

"Smoke" or "smoking" does not include smoking that is associated with a native recognized religious ceremony, ritual, or activity by American Indians that is in accordance with the federal American Indian Religious Freedom Act, 42 U.S.C. 1996 and 1996a.

"State agency" has the meaning formerly ascribed to it in subsection (a) of Section 3 of the Illinois Purchasing Act (now repealed).

"Unit of local government" has the meaning ascribed to it in Section 1 of Article VII of the Illinois Constitution of 1970.
